8360

DC BATTERY BACKUP
CHAIN DRIVE
GARAGE DOOR OPENER

Secure And Reliable. This Garage Door Opener Is Quite A Catch.

- Get in your garage every time, even when the power is out. The Battery Backup System ensures your garage door opener as well as the safety and security features will continue to work.
- Energy-efficient operation consumes up to 75% less power in standby mode.
- Industrial-strength chain drive system provides steady performance and lifting power.
- Lifetime motor warranty.

Control Your Garage Door Anytime, From Anywhere

LiftMaster's revolutionary MyQ™ technology is designed for how you live.

The new LiftMaster® 8360 with integrated Battery Backup comes with MyQ™ technology built-in. Pair it with our MyQ™ accessories so you can monitor and control your garage door and house lights with one click on your computer or smartphone from anywhere in the world.

The exclusive Security+2.0™ technology used in LiftMaster® garage door opener remote controls provides extra peace of mind for you and your family. Rolling code technology uses a new code at every click, making it virtually impossible for anyone to steal your remote control signal.

Accessories Included:

Motion-Detecting Control Panel (886LM)

- Activates the garage door opener lights as soon as you walk in, so there's no more fumbling in the dark to get in the car or grab something from the garage.
- Programming accessories is fast and easy with the new learn button.

3-Button Remote Control (893LM)

- Control up to three garage doors or MyQ™ enabled lighting accessories with this powerful remote control.
- Multi-frequency Security 2.0™ significantly reduces interference.

At LiftMaster®, safety is a major part of our mission.

It's our commitment to you and, quite simply, the way we produce products every day. Our LiftMaster® products are designed to move the largest door in your home, safely, securely and by always putting safety first.

LiftMaster®

8360 DC BATTERY BACKUP CHAIN DRIVE GARAGE DOOR OPENER

Unmatched Communication, Safety & Security

LiftMaster® is making your home safer and more responsive to how you live.

- **Auto force and electronic limits** mean the garage door adapts to weather and changing environmental conditions, which means less maintenance for you.
- **Security+2.0™ technology** is designed to communicate with the garage door opener in different frequencies. This enhanced radio virtually eliminates interference and provides you with the highest level of security.
- **The Protector System®** safety sensors project an invisible light beam across the garage door opening and automatically reverse the door if anything interrupts the beam while the door is going down. Garage door opener lights turn on automatically when the Protector System® infrared beam is broken.
- **Alert-2-Close** warning system provides UL325-compliant audible and visual warnings that the garage door is about to close when using the Timer-to-Close, or remote closing features. (Timer-to-Close is for sectional doors only, not one piece models.)
- **Patented PosiLock®** system ensures the door remains securely locked when it is closed.

LiftMaster® Accessories: The Freedom to Enjoy Your Life

The 8360 is manufactured with built-in MyQ™ technology, which enables you to tap into even more features for maximum confidence, communication and compatibility.

LiftMaster® Internet Gateway (Model 828LM)

LiftMaster's revolutionary new accessory features built-in MyQ™ technology that connects to the Internet and allows you to monitor and operate your garage door from anywhere in the world via your smartphone or computer.

Remote Light Control (Model 825LM)

Operate any lamp with your garage door opener remote control or from your smartphone when connected through the LiftMaster® Internet Gateway.

Remote Light Switch (Model 823LM)

Control lights at the touch of a button through the LiftMaster® Internet Gateway or garage door opener remote control.

Garage Door Monitor (Model 829LM)

Lets you check and close the garage door from any room in the house.

Keyless Entry (Model 877MAX)

Open or close the garage door instantly with a private 4-digit code. Program temporary access codes for visitors or delivery and service personnel. Works with LiftMaster® garage door openers manufactured since January 1993. One button-to-close feature works with all LiftMaster® garage door openers manufactured since 2006.
